	Certified PDF creation and manipulation tools. To be clear - we are not talking here about the creation of PDF files - but the ability to see and use files already created and then to be viewed in Adobe's free PDF reader, most specifically commenting and annotation added to PDF files by non-Adobe creation tools - these could not be read by the Free Adobe Reader! Suddenly the 'Open' PDF format was not so open and it is our concern that Adobe will continue to extend this in the future to regain some degree of control over who can create software with the ability to offer advanced PDF creation and manipulation functionality - whereas in the past, the primary reason for the success of this standard format has been the fact that any software company has been free to create products for the purpose without interference from any party - including Adobe. And that is why it has taken us almost 4 years to create the 'Free' PDF-XChange Viewer to allow PDF files created by any software (not just ours or Adobe's) that adheres to the open PDF format specification as defined by Adobe - to take advantage of these extended features. However - we have not stopped there, we have added extra useful features and functionality that users have told us they would find viewer to allow unill continue to do so ours the company months and ware.	- Thumbnail
